**Bob's Knobs™**

6976 Kempton Rd.  
Centerville IN 47330 USA  
[www.bobsknobs.com](http://www.bobsknobs.com) bob@bobsknobs.com

**COLLIMATE YOUR TELESCOPE WITHOUT TOOLS**

It's easy . . . just grab a Bob's Knob and turn. You can even do it while looking through the eyepiece on most scopes. And you'll never drop that pesky little Allen wrench or screwdriver in the grass again. Installation is a snap with the included instructions, and you can undo the modification at any time. Knobs are available for no-tools setup of many popular mounts. Our product line is listed below, and we also offer custom knob designs. You can order directly from [www.bobsknobs.com](http://www.bobsknobs.com) using your credit card. Check our website for more details.
