Losmandy GM-8 AND G-11 mount no-tools tripod and elevation lock knobs

These replace factory Allen bolts so the mount can be set up and adjusted without tools. Our tripod bolts mount the GM-8 and G-11 equatorial head to the Losmandy tripod top piece. Our elevation lock bolts and washers secure the elevation adjustment on the GM-8 and G-11. Bolts are stainless steel, and each has a plastic Tee handle that is 1-3/4 inch in diameter to provide adequate holding power when hand tightened.

Price is \$29.95 for the tripod knobs, and \$20.95 for the elevation lock knobs, including shipping. They can be ordered by sending us a check or money order to the above address, or by credit card through our website at www.bobsknobs.com.

Now you can leave another Allen wrench inside!
